CONSENT TO TREATMENT

I consent to the procedures that may be performed during this visit including emergency treatment and/or services which may include, but are not limited to, laboratory services, x-ray examination, diagnostic procedures, physician, nursing, or services rendered to me as ordered by my physician or other health care professional. I voluntarily request and consent for independently contracted physicians (via Frisco ER) to order all necessary tests and treatments while I am a patient at Frisco ER. I understand that medical care is not an exact science and that no guarantee or warrantee is being made as to my examination, treatment, result, or outcome. I understand that I am free to withdraw my consent and to discontinue participation in these procedures at any time. However, I understand that doing so may hinder my treatment and/or medical outcome.

CONSENT TO PHOTOGRAPH

I consent to photographs, videotapes, digital or audio recording, and/or images of me being recorded for security purpose and/or Frisco ER healthcare treatment and/or operations purposes (e.g., quality improvement activities). I understand that the facility retains the ownership rights to the images and/or recordings. I will be allowed to request access to or copies of the images and/or recording when technologically feasible unless otherwise prohibited by law. I understand that these images and/or recordings will be securely stored and protected. Images and/or recordings in which I am identified will not be released and/or used outside of the facility without a specific written authorization from me or my legal representatives unless otherwise required by law.

ACCIDENTAL BODILY FLUID EXPOSURE TO HEALTHCARE WORKER

This consent includes testing for communicable blood-borne diseases, including, without limitation of, Human Immunodeficiency Virus (HIV), Acquired Immunodeficiency Virus (AIDS), and Hepatitis if a physician orders such test(s) for diagnostic or treatment purposes. I understand that in the case of an accidental exposure to blood or other body fluids, state law allows the Emergency Room to test a patient that has exposed healthcare worker to HIV without obtaining the person's consent. I understand the potential side effects and complications of this testing are generally minor and are comparable to the routine collections of blood specimens, including discomfort from the needle stick and/or slight burning, bleeding, or soreness at the puncture site. The results of this test will become part of my confidential medical record.
